EntheoMed is now accepting referrals for Ketamine-Assisted Therapy:
A New Treatment Option for Patients with Mental Health challenges

At EntheoMed, our goal is to be a leading voice in the mental wellness space. We are a private healthcare facility delivering intensive ketamine-assisted psychotherapy, which has been developed and supported by leading psychiatrists and psychologists. Treatment is provided by ACLS trained physicians and nurses. It is accompanied by counselling and integrative therapy. See entheomed.ca/ketamine-therapy for details.

** We provide treatment for the listed 'indications'. Although other comorbidities may be present, we do not provide care for the primary diagnosis of conditions such as substance use, eating disorders, etc.

How much does this treatment cost?

As research has shown, multiple Ketamine doses may confer cumulative benefits. To allow for greater flexibility in accommodating patient's schedules, we have recently modified our treatment model.

Ketamine Therapy Consultation: \$399

To determine if a suitable candidate for treatment

- Non-refundable
- Includes psychiatric and medical assessments
- Lifetime access to educational resources and healing modalities like breathwork

Ketamine treatment: \$1400 each

- Includes pre and post treatment counselling as required
- IM Ketamine treatment in clinic with medical supervision
- Access to live and recorded educational information and other healing modalities

Subsequent treatments: \$750-1400

- After initial intake and treatment additional pricing options are available

Ketamine-assisted Therapy is not currently covered by MSP.

It may be covered by a private insurance provider, but the patient must pay up front and then seek their own reimbursement.
